

Wench

April Wine

Written by: david henman, james henman,
Ritchie henman and myles goodwynI just dropped in to see how my woman was
I wish to spend some time with her
It's not hard to see no reason why
She'll be leaving when the morning comeShe was just a woman now
Just some lonely woman now
Just some lonely woman
The only woman I've ever hadShe stayed while I talked love to her
There was nothin' she wished to know
Well things were bad and still the same
She is leaving on the morning train
