

Can I Call You

Marques Houston

Girl, I must admit that I've
Seen some fine one's in my time
But if you dare too
What seems so natural to you
The way you flex, the way you dress
Says that you give love the best
And I won't stop till I get
Get to find out for myself
'Cause no one smiles the way that you do
It would be nice if you were mine
But let's not rush into it, that way we don't lose it
What I'm trying to say is if it's fine
Can I call you tonight?
Can I call you?
Would it be cool
If I call you
To get to know you?
Can I call you?
Would it be cool
If I call you
To get to know you?
Can I call you?
Would it be cool
If I call you
To get to know you?
I'm going home
So if you have the time
Can I call you tonight?
Now I don't usually fall in love
But girl you're making me think twice
You're so feminine and I'm so genuinely
Want to get into you, you can be my homey, yeah
'Cause no one smiles the way that you do, no
It would be nice if you were mine
But let's not rush into it, that way we don't lose it
What I'm trying to say is if it's fine
Can I call you tonight?
Can I call you?
Would it be cool

If I call you
To get to know you?
Can I call you?
Would it be cool

If I call you
To get to know you?
Can I call you?
Would it be cool

If I call you
To get to know you?
I'm going home
So if you have the time

Can I call you tonight?
Can I call you?
Would it be cool

If I call you
To get to know you?
Can I call you?
Would it be cool

If I call you
To get to know you?
Can I call you?
Would it be cool

If I call you
To get to know you?
Said, "I'm going home
So if you have the time
Can I call you tonight?"

No one smiles the way that you do
And it would be nice if you were mine
But let's not rush into, that way we don't lose it

What I'm trying to say is if it's fine

Can I call you tonight?
Can I call you tonight?

Tell me that you don't mind

If we hang out sometimes

Say it would be alright

If get together, ever in life

I'm going come
So if you have the time
Can I call you tonight?

Can I call you?
Would it be cool

If I call you
To get to know you?

Can I call you?
Would it be cool
If I call you
To get to know you
Can I call you?
Would it be cool
If I call you
To get to know you?
I'm going home
So if you have the time
Can I call you tonight?
Can I call you tonight?
Tell me that you don't mind
If we hang out sometimes
Say it would be alright
Can I call you tonight?
Tell me that you don't mind
I'm going home
So if you have the time
Can I call you tonight?
Can I call you tonight?
Tell me that you don't mind
If we hang out sometimes
Say it would be alright
Can I call you tonight?
Tell me that you don't mind
