Alone

Like A Storm

When it's dark at night
You're the voice that's in my head
You're my only light
So don't leave me for dead
FadingAlone, alone, alone
I'm waiting
Alone, alone, alone
Out cold
Look up, look up
The stars are fading
Light my way back homeIf every city light
Was a diamond in my hand
I'd give it all tonight
To be back where I began
I'm fadingAlone, alone, alone
I'm waiting
Alone, alone, alone
Out cold
Look up, look up
The stars are fading
Light my way backAlone, alone, alone
I'm breaking
I can't make it on my own
Alone, alone, alone
You're waiting
Light my way back homeHeaven only knows just how far I'll go
(Faded)
Til nothing's between
It's only you and meWhen it's dark at night
You're always in my head
You're my only light
Don't leave for deadAlone, alone, alone
I'm waiting
Alone, alone, alone
Out cold
Look up, look up
The stars are fading
Light my way backAlone, alone, alone
I'm breaking

I can't make it on my own
Alone, alone, alone
You're waiting
Light my way back home
