No More Blues

Dizzy Gillespie

My minds been in proud and round.
I can't seem to stop my own thoughts from going down.
And stand in all shaky ground, I feel something changing.
You come to a point in time.
When you can't help but unravel the design.
How can I let things fall for I lose it all.
No return, you'll have to take me as I am now.
But the last some word, found it up somehow.

Oh yeah yeah, no more worries. No way that I'll lose,
no more troubles, no more blues.
I'm through with my crying. It's yesterdays news,
I'm through with my sorrow no more blues.

Sometimes when you change your plans,
People you love don't always understand.
They want what you worry for, I got to close that door.
Come with me life's brighter now I hope you can go.
If you don't agree, I'll be in Mexico

Oh yeah yeah, no more worries. No way that I'll lose,
no more troubles, no more blues.
I'm through with my crying. It's yesterdays news,
I'm through with my sorrow no more blues.

No more worries. No way that I'll lose
No more troubles, no more blues. No more blues.
I'm through with my crying. It's yesterdays news,
I'm through with my fears, through with my tears,
no more blues. No more blues.

I found love somehow, life is brighter now
I'm through with my crying, through with my tears,
through with the thyme, through with my fears,
I'm through. I'm through, no more blues.
