South Beach

Paul Wright

Walking down the street
Got my guitar strapped to my back
I'm headed to South Beach
'Cause that's the place where I sleep atSurfing all day long, yeah
And at night we're gonna sing some songs
As it goes on and on
Something like thisJump in and let go, jump in and follow
I know you want to come along
Jump on in, jump on in, jump on in, what, what, what
Jump on in, jump on in until the sun goes downThere's a big beach in Maui
And Oahu's got sandies
The north shores' where the surfers go
And all the tourists to check out the showMalibu in Cali
Santa Monica, Orange County
South Beach, Martha's vineyard
Is my backyard, is my backyardJump in and let go, jump in and follow
I know you want to come along
Jump on in, jump on in, jump on in, what, what, what
Jump on in, jump on in until the sun goes downOpen up my eyes in time to see the sun rise again
It's time for me to rise again
Looking out to heaven, walking barefoot in the sand
I'm gonna step into the ocean sayin'Who are you? Who are you?
Who are you? Who are you?Jump in and let go, jump in and follow
I know you want to come along
Jump on in, jump on in, jump on in, what, what, what
Jump on in, jump on in, jump on in, what, what, whatJump in and let go, jump in and follow
I know you want to come along
Jump on in, jump on in, jump on in, what, what, what
Jump on in, jump on in until the sun goes down
