I'll Think About You

Rivers Cuomo

I've been standing here for a long, long time
Thinking 'bout the fight we had, oh
Now maybe we're all through
Or we've just begun
But there's just one thing I need to sayEverywhere I go,
And everything I do,
No matter who's I am
I'll think about youIt may have been a game
It might have hurt a lot
But no one put you in the ring, oh
And so we kissed goodbye,
You know I love you true
You know I love playing with you, ohEverywhere I go,
And everything I do,
Ten years down the road
Ten girls under my shoe
No matter who's I am
I'll think about youEverywhere I go,
And everything I do,
Ten years down the road
Ten girls under my shoe
No matter who's I am
I'll think about you
