What You Want

Toro y Moi

Let's awaken and turn on our minds
The one is waiting for you in this line
So carry yourself on
With the reason for todayBefore you didn't even get to ask
About the present or impending past
I'm up for the day
It's whatever you wanna doI can get you what you want
It's good to see you keep in touch
It doesn't bother me anymore
I know it seems as if you were ignored
But know that you weren't
So tell me again
Bear with me, I'm not good at keeping upMoving on, no more opinions now
The time is coming where we all devour
So I'll follow you, or you follow me
Does anyone know where we go from here?
