

# Raisins

## Him Kerosene

Raisins come from grapes, people come from apes  
I come from Canada  
I came in first place in a nonexistent race  
To rebuild the ParthenonThe Parthenon's in Greece or was it in Grease 2?  
I can't keep my movies straight  
When I make mistakes I use a lot of salt  
'Cause salt makes m'steaks taste greatI don't want to be a bother  
But I think the phone's for youI've got orange pants, I wear them when I dance  
But I don't get out that much  
You are just too loud, I passed you in a crowd  
Thank you and keep in touchI don't speak Chinese, not even words like please  
Thank you or how are you  
But I can parle Franais, I parled a bit today  
It seemed like the thing to doI don't want to be a bother  
But I think you're in my seat
