Pendulum Swing

Monkey Trick

Businessman take a look in your pocket,...what will you find?
Strings are attached to your body,... are they attached to your mind?Someone's controlling you... up in the sky.
Public tentacle.. moving the entwined.Can we ever turn back now? It's grown so high we couldn't get back down.
Can we ever turn around? Can all our money weigh them down? Weigh them down!
The pendulum, is stuck on left. The pendulum is broken, broken... broke.Congressman do you have no power,... until you have everything?
Wisdom would slice red-tape,... strength would cut the string?Drop our controls... from up in the sky.
Watch your bureaucracy... start to unwind.Can we ever turn back now? It's grown so high we couldn't get back down.
Can we ever turn around? Can all our money weigh them down? Weigh them down!
The pendulum, is stuck on left. The pendulum is broken, broken... broke.(We're broke...)
