Lucky Star

Nightcore

You're on my mind
You are so far away from me
Gone is the night
Open your eyes and you will see
Love like a rose
Like a candle in the wind
Let our love grow
Don't turn awayI could be your lucky star
You're ever lasting love
Hey ya
You could be my super star
I couldn't get enough of your love
I could be your lucky star
Your ever lasting love
Hey ya
You could be my super star
I couldn't get enough
Of your love
Hey ya
Hey yaDon't turn away
I know you can see my broken heart
Why don't you stay?
We got two hearts so far apart
Every rose
Every rose has got it's thorn
When I need you most
You turn awayI could be your lucky star
You're ever lasting love
Hey ya
You could be my super star
I couldn't get enough of your love
I could be your lucky star
Your ever lasting love
Hey ya
You could be my super star
I couldn't get enough
Of your love
Hey yaLike a river
Leeds to the ocean

My love is floating trough your heart
It will never stop
We're strong together
For now and forever
You could be my lucky starI could be your lucky star
You're ever lasting love
Hey ya
You could be my super star
I couldn't get enough of your love
I could be your lucky star
Your ever lasting love
Hey ya
You could be my super star
I couldn't get enough
Of your love
Hey ya
