

Distance

All Saints

Home, ooh, oohSittin' on my own, a long way from home
It's a distance from you and I'm thinkin' about you too
Sittin' on my own, a long way from home
It's a distance from you and I'm thinkin' about you tooOn the other side of the world, alone, without my girls
But time was on my side, I think I've been flyin'
Spoke to you on the phone, I hope you're all alone
If I had things my way but then I can't, so let me saySittin' on my own, a long way from home
It's a distance from you and I'm thinkin' about you too
Sittin' on my own, a long way from home
It's a distance from you and I'm thinkin' about you tooSeems like it's been so long, can't remember where I'm
from
My mission never ends, I've even made new friends
I know you're missing me, that's the way it's got to be
If I could come home for one more day but I can't, so let me sayAt this time I cannot feel you, I cannot see
They don't know I'm taken, I'm stickin' for being free
But I'll never know if your heart is with another boo
It's a distance from you, it's a distance from youSittin' on my own, a long way from home
It's a distance from you and I'm thinkin' about you too
Sittin' on my own, a long way from home
It's a distance from you and I'm thinkin' about you tooIt's a distance, it's a distance, it's a distance from youAt
this time I cannot feel you, I cannot see
They don't know I'm taken, I'm stickin' for being free
But I'll never know if your heart is with another boo
It's a distance from you, it's a distance from youSittin' on my own, a long way from home
It's a distance from you and I'm thinkin' about you too
Sittin' on my own, a long way from home
It's a distance from you and I'm thinkin' about you tooSittin' on my own, a long way from home
It's a distance from you and I'm thinkin' about you too
Sittin' on my own, a long way from home
It's a distance from you and I'm thinkin' about you tooIt's a distance from you, it's a distance from you
It's a distance from you and I'm thinkin' about you too
It's a distance from you, it's a distance from you
It's a distance from you, it's a distance from you
It's a dis, ah and I'm thinkin' about you too
