

# Try

## Union 13

Life is joke, at least that's how we treat it  
Common sense is scarce now that we really need it  
The scales tip on stupid  
The ignorant outnumber those who still care  
Still care about the number It didn't have to end this way  
With everyone in conflict  
Tomorrow's such a big day  
Let's see what grows out of it As we watch from the other side  
Mistakes outnumber chances  
Space expansion will go on The answer is really simple  
A forward motion not a reversible spindle  
Powered by violence and bad thoughts all around  
For your sake and mine  
Take a deep breath, breath and try It didn't have to end this way  
With everyone in conflict  
Tomorrow's such a big day  
Let's see what grows out of it As we watch from the other side  
Mistakes outnumber chances  
Space expansion will go on  
With or without all of us around It didn't have to end this way  
With everyone in conflict  
Tomorrow's such a big day  
Let's see what grows out of it As we watch from the other side  
Mistakes outnumber chances  
Space expansion will go on  
With or without all of us around
