

# Fear the Future

[Emma Blackery](#)

They say there's strength in numbers  
And I was weak as one  
But now that we're together  
Look how strong I have become I used to fight alone  
Now I fight for me and you  
And the people who upset you  
Are now my enemies too (oooooh) And when I start to miss you  
I go to sleep and then  
I'm another day closer  
To seeing you again And I want you to remember this  
When you put yourself down  
I cannot fear my future  
Now that I have you around (Ohhhhhh)
