The Fallout

Novice

This is the way it used to be
This is the way you used to run to me
Before you let it go
You let me go
These were the things you used to say
These were the things you said would never change
Before you let it go
You let me goWe're so far gone
We left it all behind
Slowly finding out...This is the end
This is the worst
This is the fallout
These are the things we need to say to make this right
Can we find our way home?
This is the end
This is the worst
This is the fallout
These are the things we need to change to make this right
Will we find our way home?This is the way it used to be
I never saw you walk away from me
Before you let it go
You let me go
These were the things you held on to
This is the way you used to see things through
Before you let it go
You let me goWe're so far gone
We left it all behind
Slowly finding out...
This can't go on
Everything we had is gone
I think it's safe to say...This is the end
This is the worst
This is the fallout
These are the things we need to say to make this right
Can we find our way home?
This is the end
This is the worst
This is the fallout
These are the things we need to change to make this right

Will we find our way home?You're all I need
We're losing speed
This can't go on
You're all I see
So speak to me
Am I losing you?This can't go on
Everything we had is gone
I think it's safe to sayThis is the end
This is the worst
This is the fallout
These are the things we need to say to make this right
Can we find our way home?
This is the end
This is the worst
This is the fallout
These are the things we need to change to make this right
Will we find our way home?This is the end
This is the end
This is the end
