

Cherry Red Wine

[Jonny Lang](#)

Watching you baby, yeah
Watching you all the time
Watching you baby
Watching you all the time Watching you destroy yourself
All you do is sit around drinking wine You worry me baby
Sitting here wondering what can I do
You're worrying me darlin'
Sitting here wondering what can I do I'm just out here sit do nothing
Watch that wine destroy you, yeah destroy you I'm taking you to the doctor baby
Maybe the doctor knows what's going wrong in your head
I'm taking you to the doctor women
Maybe the doctor knows what's going wrong in your head If you keep drinking that wine, women
Even the glass on your grave will be cherry red
