

A Love Song

EGO-WRAPPIN'

Why do people cry when they hear
The word goodbye in a love song?
Tears are sure to fall when you know
They gave it all in a love song
Somehow two lovers get a chance
At a beautiful romance
And you wish it could be you
?Cause everybody?s needing
What the singers all are singing
In a love song
It can tear you apart ?cause a word
Can break a heart in a love song
They say all the things you feel
And they make it sound so real in a love song
It seems that everything they say
Is said in such a way
That we believe it?s true
?Cause everybody?s needing

What the singers all are singing
In a love song
Each of us know there?s no guarantee
We?ll ever find love
And in the songs that we share
The heartache is there to remind us
New love brings a thrill and we know
It always will in a love song
Happiness can leave but it helps
If we believe in a love song
There?s a part of you and me
In every memory that tells us who we are
And everybody?s needing
What the singers all are singing
In a love song
And everybody?s needing
What the singers all are singing
In a love song
