

The Mysteries of Love

Alphaville

All I want is you, don't you know that
Forever, don't you know that it's true
I'm leaving you tonight but don't listen
If they say that we'll never meet again
In the land of make believe We cannot lose the race
Breaking the secret spells they put on us my love
We're far out of their reach a million years ahead
They never understand the mysteries of love Here's the mysteries of love
Give your body to the mysteries
Tear down your uniforms
Here's the mysteries of love All I want to be, don't you know that
All we wanna be is free like the beasts of the sea
We kiss the last goodbyes and sailing with a smile
'Cross the iron borderlines that butterflies despise We cannot lose at all
Breaking the secret spells they put on us my love
We're always out of their reach a million years ahead
They never understand the mysteries of love Here's the mysteries of love
Give your body to the mysteries
Tear down your uniforms
Here's the mysteries of love The mysteries of love
Here's the mysteries of love
Give your body to the mysteries
Tear down your uniforms
Here's the mysteries of love The mysteries of love
Give your body to the mysteries
Tear down your uniforms
Here's the mysteries of love
