Carry

Headroom

Love, hold my hand
Help me see with the dawn
That those that have left
Are not gone
But they carry on
As stars looking down
As nature's sons
And daughters of the heavens
You will not ever be forgotten by me
In the procession of the mighty stars
Your name is sung and tattooed now on my heart
Here I will carry, carry, carry you

Forever
You have touched my life
So that now
Cathedrals of sound are singing, are singing
The waves have come to walk with you
To where you will live in the land of you,
Land of you
You will not ever be forgotten by me
In the procession of the mighty stars
Your name is sung and tattooed now on my heart
Here I will carry, carry, carry you
Here I will carry, carry, carry you
