Release

JayKode

you took your time fill me to the brim
you blew me up now i'm feelin it
i feel the pressure certain in
you got me lost in this heaviness

you filled me up would you please release me? 3x
release me
release me

please release me
ohh

long beat goes...

do you like suffocate in me
all this tension in between
has got me crave and sweet release
so let me go so let me leave

you filled me up would you please release me?
release me
release me
