

# Release

**JayKode**

you took your time fill me to the brim  
you blew me up now i'm feelin it  
i feel the pressure certain in  
you got me lost in this heaviness

you filled me up would you please release me? 3x  
release me  
release me

please release me  
ohh

long beat goes...

do you like suffocate in me  
all this tension in between  
has got me crave and sweet release  
so let me go so let me leave

you filled me up would you please release me?  
release me  
release me
