

# Booger

## Rozwell Kid

I had a finger deep inside my nose  
I was digging through a lonely scene  
In here waiting all day for your call  
I just sit around and pick it clean  
When I finally felt that mobile buzz  
I didn't even wait to hear it ring And I slide to answer  
A shout and oh no  
I got a booger on my screen  
Oh no  
Booger smeared across my screen  
I don't wanna let anything  
Keep me from saying "I love you"  
Not even a booger on my screen  
And when you told me we were history  
I exploded in a broken dream  
I was silent, frozen, all alone  
You said "Goodbye" and cut the chord with me  
And I sank down, swallowed by the couch  
I lost my number one, my everything  
And my bright reminder  
In the whole wide world  
Is the booger on my screen  
Booger smeared across my screen  
I don't wanna clean anything  
That reminds me of saying "I love you"  
Not even a booger on my screen
