Dream Eater

Concepts

Dream with your eyes open
Dream with dreams with
Dream with your eyes open

Every little thing that you say to me
Is breaking me inside and i can't find the piece
Ever though i've been picking up all the pieces
(gotta put it together)
Walking around in the darkness
My love is gone my dreams are haunted
By a ghost of what i really was

This tattered soul and
Broken bones have been haunting me
But i can't stand the sight of this man that claims to be
Why was i set free?
Fuck what i have benome i'm not the enemy?
Walking around i lost a piece of myself(myself)
My true edentity

I finnaly opened up to
The sky that i've been staring at
Wondering what would've become of
What we thought we had when we were young

I stand for myself but i wasn't really ready
To be rid of who i was
I stand for myself i may not do everything right
But atleast i know who i am

I gotta learn to fight my own fights
Gotta learn to grab the light to light my own life
(Live it right)
Making decisions making them tonight
What's the last thing that you would do
Before you start your new life?

I don't know who i am anymore
My mind is clouded what have i become?
I pray to god for guidance on this journey

I've been given my sense of being punished and forgiven
Stay away from my path and
Maybe i will come back to you
When i have found myself

I've been searching for something
I lie awake lie awake to find out where i've been
I won't let you remember me

My heart is torn what can i say?
I stayed for myselff and
I'm readu to be rid of who i was
So let's make this our night
We only get one in our whole life
Don't let the world fall fast asleep
It's our chance it's our chance

I'm lost in the words that i speak
Like whispers and lies i can't seem to
Keep hidden away from the world
And everyone that needs me to see them clearly
I'm better off waiting for long enough
The gates around my mind have opened up
As i make my way through
You will see something that you have never known
This is the rebirth of a new life
I'm only a dreamer who sleeps with closed eyes
