You Don't Know

Squad Five-O

what does it mean, what do you believe, and how does it relate to me
i don't understand how can i die, be crucified, yet
be born again
i try so hard to explain
your actions have a consequence
in your life there is a price to pay
you don't know what it means
knowledge
you ask me why life's passing by
why should you care, why should you try
i've seen the truth, i can't deny
the life i have, Christ crucified
your actions have a consequence
in your life there is a price to pay
you don't know what it means
knowledge
