

Another Way

Tevin Campbell

Early in the mornin' round 3 a.m.
Lying with a girl named Kim
With a glass of gin, sippin' on it
About to hit the skins
Now I'm all in Telephone rang, was a girl named Jane
From around the way
How could I forget
Damn, am I caught?
Is it time to quit?
Runnin' through my head I ain't tryin' to run around no more
Sick and tired of losing track of scores
Every time I turn around, the same old game
Another day
Thinkin' I just wanna settle down
Tired of living foul, it's over now
Said to myself there's gotta be another way, yeah Later in the day, next case was a girl named Trace
Draped in lace, pink negligee
Spreadin' her legs
Drinkin' Perdue
Callin' my name Telephone rang
She said that it was a friend on the other end
Sounding masculine
Couldn't believe
How could I pretend
Didn't hurt me Finally, I can see there's another life for me
I don't wanna live this way
I feel it's time I made a change
I believe I can be a better man and I don't need
Every woman in the world
I gotta find myself a girl I ain't tryin' to run around no more
Sick and tired of losing track of scores
Every time I turn around, the same old game
Another day
Thinkin' I just wanna settle down
Tired of living foul, it's over now
Said to myself there's gotta be another way, yeah I ain't tryin' to run around no more
Sick and tired of losing track of scores
Every time I turn around, the same old game
Another day

Thinkin' I just wanna settle down
Tired of living foul, it's over now
Said to myself there's gotta be another way, yeahI ain't tryin' to run around no more
Sick and tired of losing track of scores
Every time I turn around, the same old game
Another day
Thinkin' I just wanna settle down
Tired of living foul, it's over now
Said to myself there's gotta be another way, yeahI ain't tryin' to run around no more
Sick and tired of losing track of scores
Every time I turn around, the same old game
Another day
Thinkin' I just wanna settle down
Tired of living foul, it's over now
Said to myself there's gotta be another way, yeahI ain't tryin' to run around no more
Sick and tired of losing track of scores
Every time I turn around, the same old game
Another day
Thinkin' I just wanna settle down
Tired of living foul, it's over now
Said to myself there's gotta be another way, yeah
