The Loneliest Number

Parker Foti

One is the loneliest number that you'll ever do
We, we, we
Two can be as lonely as one, it's the loneliest number since the number one.

So I heard you're a player
So let's play a game
I said I never lost, so it's all the same
I got the riddle solved
I never get involved
Cuz walking chains when you're grounded by the walk of shame
Pretty crazy when you think about it
You lost your whole life soon as you put a ring around it
And now you're playing ring around the Rosie
