

When You Praise

Fred Hammond & Radical for Christ

[chorus 1]

When you praise, when you praise,
There should be a fire in your heart.
Hands up raised, when you praise,
Consuming every part because you know
The GOD we serve will make
His presence known, when you praise,
When you praise.

[x2]When we think of how wonderful
And merciful and kind
Our GOD has been to us.

Then we know every glory hallelujah
He deserves, when we praise

[back to chorus 1]

Praise will bind, confuse
And break the enemy.

And cause his hands to be still.

So we raise our hands in total victory
We know we triumph in his will.[chorus 1: woman sings]

When we praise, when we praise,
There should be a fire in your heart.
Hands up raised when you praise,
Consuming every part because you know

[chorus]

The GOD we serve will make his presence known.
Oh, when we praise, when we praise, when we praise.[chorus 1: fred sings]

Let us praise, let us praise
With fire in our heart

Hands up raised let us praise
Consuming every part because you know
The GOD we serve will make his presence known.

[fred]

When we praise, when you praise
Say, when you praise
And say there is none
(there is none like you)

When you praise, my sister when you praise
My brother, when you lift up your hands
And open up your mouth and say

(our GOD is an awesome GOD yeah)
When you, when we praise
When you lift your hands, in the midst of your trouble
When you praise, when you praise
And say bless
(bless the lord on my soul)
Say when you praise
When they praise
When the body of christ gets together
And lifts up their voice is whats its called
When we praise, when we praise
And say there (there is none like you)
My brother when you lift your voice
In the midst of your trial
And sing, yeah when you praise.
And you say (our GOD is an awesome GOD yeah)
When you praise, when we praise
When you praise and say bless
(bless the lord on my soul)
On my soul, when you praise
We praise his holy name, hey
When you praise,
(when we praise) You can put your hands in here tonight if you want to
