I Found Out

Butterfly Boucher, Butterfly Boucher

I found out
I can only be who I am
I can only do what I can
I won't try to describe the relief
And the rush
Where did the panic and the racket begin?
I swear I don't remember letting them in
How could this possibly be happening?
Again
Please slow down
We don't need to be
Anywhere but here
Please slow down
I'll miss it when you're heart's not around
Please slow down
I found out
I can only be who I am
I can only do what I can
I won't try to describe the relief
And the rush
Where did the panic and the racket begin?
I swear I don't remember letting them in

How could this possibly be happening?
Again
So please slow down
We don't need to be anywhere but here tonight
Please slow down
Or miss it when you're heart's not around
Slow down
I'm going seeking
Hoping to find
All the raptures your heart down
I miss it when your hearts not around
Please slow down tonight
I found out
I can only be who I am
I can only do what I can
I won't try to describe the relief

And the rush
Where did the panic and the racket begin?
I swear I don't remember letting them in
How could this possibly be happening?
Again
Again
