

# Erase the Past

[Yyrkoon](#)

Killing time gets closer to me  
It's next to me  
Remembering pain  
And spiritual hate  
Defying my deepest imagination  
Dark and gloomy visions are passing away before my eyes  
Kill  
Erase the past  
Kill  
Kill  
Erase the past  
The door that leads  
To no-rules world  
Slowly just became to close itself  
And thousand eyes behind it  
Are piercing my hidden murders my past acts
