

# Best of What I Got

## Bad English

Ow, oh yeah If you wanna put a message through my heart  
Shoot the arrow in the morning, hey  
I'm gonna rise and shine and wake you up  
And move you without warning Call my name, I understand  
The reason for desire  
The band of gold I give to you  
Be the ring of fire, hey Something in your kiss that lasts forever  
Burning in the heat for you  
Love you 'round the clock  
You get the best of what I got, oh yeah Gonna work all day to buy you pretty things  
'Cause you're such a pretty girl  
You can work me overtime, knock me out  
Got my senses in a whirl Like a locomotive burning down the track  
You're my destination  
One on one and kiss for kiss  
You're my fascination Something in your touch that holds the promise, hey  
You got me feeling all shook up  
I'll love you 'round the clock  
You get the best of what I got, oh yeah I put my key inside your door and it feels so good  
When I come home at night  
We're rocking the neighborhood  
Rocking the neighborhood Something that you read about in headlines, hey  
I feel the heat for you  
I wanna rock you 'round the clock, you get the best  
You get the best of what I got, oh yeah You get the best of what I got, ow  
I wanna love you 'round the clock  
(Best of what I got)  
Oh, you get the best of what I got  
(Best of what I got)  
Ow, that's right, I wanna love you 'round the clock  
(Best of what I got) Ow, ooh, yeah  
(Best of what I got)  
That's right, you get the best of what I got  
(Best of what I got)
