

Sunny Side Of Love

Aerosmith

You hear them people talking
About the man above
There's too much talking trash
And not enough love
Now I believe in rainbows
I gotta make it clear
That I told everyone you know
That you were my idea
You're the love of my life and keeper
Head over heels and a we're falling deeper
I got a feeling it's time and so maybe
I got That something in mind so baby
Take me to your sunny side of love
That's right where we belong
Take me to your sunny side of love
You're one of a kind girl
And I just can't get enough
A needle in a haystack
A diamond in the rough
Your perfect Imperfections

You know you got that right
It's all that loving all day long
Keeps me up all night
No doubt about it, she rhymes for no reason
We're talking love yeah the kind you know she's in
You want a kiss and you know that you ought to
Yeah you can't miss and you know you've got to
Take me to your sunny side of love
That's right where we belong
Take me to your sunny side of love
You know htat it won't take long
Take me to your sunny side of love
You're the love of my life and keeper
Head over heels and a we're falling deeper
I got a feeling it's time and so maybe
I got That something in mind so baby
Take me to your sunny side of love
That's right where we belong

Take me to your sunny side of love
You know htat it won't take long
Take me to your sunny side of love
Yeah
Take me to your sunny side of love
