Golden State Of Mind

lovekillcircus

I found my self inside a labyrinth
I didn't think that I would make it out alive.
this place can see right through you
and I know yes I know .
this place before me was created in my mind.
the one place I truly feel alivehave you ever seen the stars fall from the sky & have them surround you.
I don't think you've ever seen the world so bright and shine like you do.
in the darkest times in life you were my light, you guided me through.
from this moment on o swear to be alive, and shine like you do.I see through the eye that I have hidden
this place before me was created in our minds.
I don't expect you'll get it
the first time the first time.
once you know the truth it's not hard to realize.
when you combine the two you'll be alivehave you ever seen the stars fall from the sky & have them surround you.
I don't think you've ever seen the world so bright and shine like you do.
in the darkest times in life you were my light, you guided me through.
from this moment on o swear to be alive, and shine like you dothis pain inside me was tearing up my heart
and I cant take it its picking me apart
this pain inside me is tearing up my heart
and I cant take it its picking me aparthave you ever seen the stars fall from the sky & have them surround you.
I don't think you've ever seen the world so bright and shine like you do.
in the darkest times in life you were my light, you guided me through.
from this moment on o swear to be alive, and shine like you do.
