Crucify Me

Jerry's Kids

Crucify me, nail my hands to a wooden cross
There is nothing above, there is nothing below
Heaven and hell, they just row the boat
And I'll be captain for me
I am an ocean, I am the sea
There is a world inside of me
Lost in the abyss, trapped in the deep
No set of rules could salvage me
Don't need a shipwreck, no we don't
Failure to radio, fend for ourselves
We just watch the waves crash over
We all get cast to sea
There is a hell, believe me I've seen it
There is a heaven, let's keep it a secret
No one needs to know
There is a hell, believe me I've seen it
There is a heaven, let's keep it a secret
No one needs to know
I am an ocean, I am the sea
There is a world inside of me
Lost in the abyss, trapped in the deep
No set of rules could salvage me
Save yourself, save your breath
We've come this far, we can't go back
So pray for me, just pray
There is a hell, believe me I've seen it
There is a heaven, let's keep it a secret
There is a hell, believe me I've seen it
There is a hell, believe me I've seen it
There is a heaven, let's keep it a secret
There is a hell, believe me I've seen it
If we make it through the night
If we make it out alive
We'll have mercy
And pray for the dead
Are you saying that you can save me?
Don't hope to ever find me
And I'll say that you forgot
Pray for the dead

If we make it through the night
If we make it out alive
We'll have mercy
And pray for the dead
Are you saying that you can save me?
Don't hope to ever find me
And I'll say that you forgot
Pray for the dead
Pray for the dead
Pray for the dead
Pray for the dead
Yeah
Ladies and gentlemen
Can I have your full undivided attention?
There is something
You all really need to know
There is a hell, believe me I've seen it
There is a heaven, let's keep it a secret
There is a hell, believe me I've seen it
There is a hell, believe me I've seen it
There is a heaven, let's keep it a secret
There is a hell, believe me I've seen it
If we make it through the night
If we make it out alive
You say that you can save me
Don't hope to ever find me
And I'll say that you forgot to
Pray for the dead
If we make it through the night
If we make it out alive
We'll have mercy
And pray for the dead
You say that you can save me
Don't hope to ever find me
And I'll say that you forgot to
Pray for the dead
I am an ocean, I am the sea
There is a world inside of me
I am an ocean, I am the sea
There is a world inside of me
I am an ocean, I am the sea
There is a world inside of me
I am an ocean, I am the sea
There is a world inside of me
I am the ocean, I am the sea

There is a world inside of me
I am the ocean, I am the sea
There is a world inside of me
I am the ocean, I am the sea
There is a world inside of me
I am the ocean, I am the sea
There is a world inside of me
