

Love + Faith + Inspiration (Reprise)

Lindsay Pagano

Love and faith and inspiration
Language without conversation
There's no better God creation
Planet Earth is our vacation
Love and faith and inspiration
(say it again)

Love and faith and inspiration
Language without conversation
There's no better God creation
Planet Earth is our vacation
Love and faith and inspiration
Now the rain is falling hard
Standing in my own backyard
Dreaming of a kiss
Do we have to be enemies like this?

Love and faith and inspiration
Sing a song of meditation
If you're feeling desperation
There's just one medication
Love and faith and inspiration

Love and faith and inspiration
Baby it's our destination
Fill the world with education
It's a soul stimulation
Love and faith and inspiration

Life is a story
Gentle as the wind
Listen while I tell it
Love is where it begins
Love and faith and inspiration
Love and faith and inspiration
Language without conversation
There's no better God creation
Inspiration (say it again)
Love and faith and inspiration
Language without conversation baby

There's no better God creation
Planet Earth is our vacation, oh
Love and faith and inspiration
Do you know the implication

When you use your heart for navigation
Make a simple,
Do you know the implication
When you use your heart for navigation
(Do ya do ya do ya do ya?)
Do you know the implication
When you use your heart for navigation
Make a simple dedication, what a perfect combination
