Volcano

Everclear

I like it here in this quiet room
We can turn off all the trouble
When we do what we do
I like it here in the middle of the day
We can hide inside each other
When we need to get away
Away from the world
We need to get away from the world outside
Away from the world
We need find a place where we can hide
Somewhere they can't find us
Yeah somewhere on a volcano
We can hide inside a volcano
We can find the good life on the inside
I like the crazy way you look at me
Without the drugs
We can be what we're afraid to be
I remember what it's like
To be clean and insane
I remember what it is
That makes me need to get away
Away from the world
We need to get away from the world outside

Away from the world
We need find a place where we can hide
Yeah somewhere they can't find us
Where my checker past can fade to white
Will they let me out this time
I made some mistakes
I paid the price
I walked away clean
You know I did my time
You've been waiting for years
Waiting for me
Waiting to leave
So we can find a dream
We can live on the volcano
With the fire all around

We can lose ourselves inside the dream
In the middle of the northerest sign
Get away from the world
Gotta get away from the world outside
Away from the world
Get away from the world outside
Away from the world
You know we gotta find a place where we can hide
Oh somewhere we can hide
We can find the good life on the inside
