## **Soldiers Make Good Targets**

## **Stereophonics**

What kind of place are we living now?

Watching wars live via satellite

You carry a gun but no smoking inside

Escape disease yet I could get shot tonightYou shoot, you loseThe time has come and you're all alone

And you know you're not dreaming

It's heaven's door, you're ringing on the bell

Will they let you in, or you going to hell?I'll take a war, I'll take mine with fries

Medium rare, wash a coke down with ice

Swallow it down, no time to digest

What do you know, I'm feeling hungry againYou shoot, you loseThe time has come and you're all alone

And you know you're not dreaming

You're in heaven's door, you're ringing on the bell

Will they let you in, or you going to hell? The time has come and you're all alone

And you know you're not dreaming

It's heaven's door, you're ringing on the bell

Will they let you in, or you going to hell? Show me, show me, show me

Show me, show me, show me

You shoot, you lose

You shoot, you lose
