

# Johnny Sunshine

## Liz Phair

You took the car  
It was my favorite one  
A little white Dart  
And drove it to Idaho  
You took the horse  
It was a thoroughbred  
Saddled it up  
Out on the interstate  
You kept the cat  
Put it in antifreeze  
Dumped in the trunk  
With the rest of the cattle feed  
You took the house  
You went and changed the locks  
Now I am stuck  
Livin' out of a box  
I think I've been taken  
For everything I own  
I've been hurt so badly  
I'm alone, baby, I'm alone  
You left me nothing  
You left me nothing  
Johnny sunshine  
You left me nothing  
You left me nothing  
Johnny sunshine  
You left me nothing  
You left me nothing  
Johnny sunshine  
You left me nothing  
You left me nothing  
Johnny sunshine  
You left me nothing  
You
