North Star

Deborah Calland

North star
We stare
How far
How clear
Now touch
Touch here
Now warm
Now near
Now near

Within
With you
With love
With love
How sweet
How filled

Now time
Now time
Now touch
How sweet
How near
How filled

Now time
Times still
I'm still

Tonight
North star
We stare
How far

How clear
How far
How clear
How far
How clear
Now touch
Touch here

Now warm
Now near

Within you
With you
With love
With love
With love

I stand in the hallway
She stands in the hall
I stand at the doorway
She stands at the door
I lean in the window
She leans on the wind
I wait for beginnings
She waits for the end

North star
North star
How far
How clear
Now touch
Touch here

Now warm
Now near
Now near
How far
How clear
Now touch
Touch here

Now warm
Now near
Now near
