

# North Star

## Deborah Calland

North star  
We stare  
How far  
How clear  
Now touch  
Touch here  
Now warm  
Now near  
Now near

Within  
With you  
With love  
With love  
How sweet  
How filled

Now time  
Now time  
Now touch  
How sweet  
How near  
How filled

Now time  
Times still  
I'm still

Tonight  
North star  
We stare  
How far

How clear  
How far  
How clear  
How far  
How clear  
Now touch  
Touch here

Now warm

Now near

Within you

With you

With love

With love

With love

I stand in the hallway

She stands in the hall

I stand at the doorway

She stands at the door

I lean in the window

She leans on the wind

I wait for beginnings

She waits for the end

North star

North star

How far

How clear

Now touch

Touch here

Now warm

Now near

Now near

How far

How clear

Now touch

Touch here

Now warm

Now near

Now near
