

When I Said I Would

Whitney Duncan

The first time that I ever saw your face
I felt something stop me in my place
The kinda thing that you just cant see coming your way I closed my eyes and I jumped right in
Zero to sixty and to the win
With my head held high like it was never coming home
And I trusted you when you asked me to When I said I would, tell me what was I thinking
I gave my heart without even blinking
Thats all you got? Well baby thats just no good, whoa Dont give me that line, you know I wont buy it
Youre as good as love as you are at lying
You said Uh-huh but I just dont think you understood
When I said I would I stood by you, played by the rules
For a second I thought that you did too
Makes me wonder how long you would have let me be a fool
I gave it my best, this is what I get When I said I would, tell me what was I thinking
I gave my heart without even blinking
Thats all you got? Well baby thats just no good, whoa Dont give me that line, you know I wont buy it
Youre as good as love as you are at lying
You said Uh-huh but I just dont think you understood
When I said I would
When I said I would Im taking back when I said I would love you
Im taking back every kiss that I gave you
Im taking back every promise I made you
Im taking back everything that I said When I said I would, tell me what was I thinking
I gave my heart without even blinking
Thats all you got? Well baby thats just no good, whoa Dont give me that line, you know I wont buy it
Youre as good as love as you are at lying
You said Uh-huh but I just dont think you understood
When I said I would
When I said I would Whoa, dont give me that line, you know I wont buy it
Youre as good as love as you are at lying
You said Uh-huh but I just dont think you understood
When I said I would
When I said I would
