

Song For The Man

Beastie Boys

I don't like your attitude, boy What makes you feel
And why you gotta be
Like you got the right
To look her up and down? What makes this world
So sick and evil?
I know you don't know What makes you feel
Like you got whip appeal?
Who made you the judge jury?
Ain't you never heard of privacy? What makes this world
So sick and evil?
You figure it out
