

# A Better Word

Josef Salvat

Love me  
'Cause that is all I really need  
When all the rest of it has blown away  
To not be ending it alone  
So I'm begging with you, love me  
'Cause I am down on bended knee  
And fear is dripping over me  
'Cause I don't want to see this end  
I only want to give you love I'm over with a single glance  
These heady nights, this heady trance  
I'm looking for a better word  
There must be one I didn't learn  
At once too much but not enough  
Perhaps you'll need to lie a little And just love me  
'Cause that is all I really need  
When all the rest of it has blown away  
To not be ending it alone  
So I'm begging with you, love me (Ooh)  
'Cause I am down on bended knee (Higher, higher)  
And fear is dripping over me (Ooh)  
'Cause I don't want to see this end  
I only want to give you love (Love) I wish there was a better word than this (Ooh)  
(Love, love me x2) Love me  
'Cause that is all I really need  
When all the rest of it has blown away  
To not be ending it, love  
So I'm begging with you, love me (Ooh)  
'Cause I am down on bended knee (Higher, higher)  
Fear is dripping over me (Ooh)  
'Cause I don't want to see this end  
I only want to give you love  
I only want to give you love  
I only want to give you love  
I only want to give you love
