I Believe in You

Toy-Box

Shout it out
Truth or dare
Show that you're hurt
You know that I careTake a chance
Let it go
Pretend that you are dreaming
Just cope with the flowNow that I fire
feels like a dream come true
Give me a signal
Waiting around just for you
Cause I'll be here for youI believe in you
And all the things you are
I believe in you
For now and forever
And now and forever moreClose your eyes
make a wish
I'm sending a thought
I have sealed with a kiss
Fly away
Make demands
You know I'll be waiting
if you need a friend...(see above)
