Plans

Plug in Stereo

See I know you've got your plans
About your life and how to live it
You want two different things
But it's getting hard to pivot
A steady life but such a bore
Or take a risk for something more
What kind of life would you like to be livin'?You know I've got my plans
But they're getting risky
Gone for months and months
So you'll really start to miss me
And when I'm on the road
That's when I need you the most
At the end of the day I just need to have you with meSometimes life gets hard
When you miss somebody but they're too far
And it's sad cause no one has our back
But one thing's for sure
The more they tell us no,
The more we'll try to make it work.Our plans keep on changin'
As we're growing older
I try so very hard
To keep to all the things I told her
And when I lose hope
That's when I need her the most
At the end of the day I just gotta hold herSometimes life gets hard
When you miss somebody but they're too far
And it's sad cause no one has our back
But one thing's for sure
The more they tell us no,
The more we'll try to make it work.A different city every night, it's okay,
I find the longer I'm without you,
The more I'm all about you
A different city always gets in the way
I find the longer I'm without you,
The more I'm all about you
I'll never lose hope,
I'll always need you the most
And when I get home
Just need to hold you, just need to hold you.Sometimes life gets hard
When you miss somebody but they're too far

And it's sad cause no one has our back
But one thing's for sure
The more they tell us no,
The more we'll try to make it work.
