

Can You Dance With Me?

Andrew W.K.

Everybody would you like a good time?
Would you like get together at a quarter past nine?
If you like my dancing and you like what you see
Then grab yourself around and dance with meGrab yourself around and dance with me
Grab yourself around and dance
If you really want to get me going and you like to get high
Then grab yourself around and dance all nightEverybody do you want to party?
Do you want to go and shake it 'til a quarter past three?
If you like my dancing and you like what you see
Then grab yourself around and dance with meWhen you're feeling low
There's a place you can go
Where the music is loud
You can dance with the crowd
You can dance with them
But can you dance with me?Can move it like a color TV
Could you move it over closer to me?
If you really like loving and you like to get high
Then grab yourself around and dance all nightIf you really want to shake it like a monkey in a coconut tree
Then grab yourself around and d-d-danceWhen you're feeling low
There's a place you can go
Where the music is loud
You can dance with the crowdYou can dance with them
But can you dance with me?
Can you dance? Can you dance? Can you dance?
Can you dance? Can you dance with me?You can dance with the crowd
You can dance with them all
Can you dance? Can you dance? Can you dance?Can you, can you, can you, can you
Dance, dance, dance, dance, dance
Can you dance with me?
Then would you please?
