This Gift

Clearshot

This gift will last forever
This gift will never let you down
Some things are made from better stuff
This gift is waiting to be found

Your heart's in wide receiving
Been too long buried in the sand
Some things require leaving
This gift will fall right in your hand
Just try to understand...

If you long enough
And you don't give up
If you're strong enough
And you don't give up
And you...

You'll be no harbor to the sorrow
Just let it go.

Don't hang your head in sorrow
Don't give up just before you win
Don't wait around for tomorrow
Open up your arms and let it in

This gift will last forever
This gift will never let you down
Some things are made from better stuff
This gift is ready to be found
Just you believe it now

This gift will last forever
This gift will never let you down
Some things are made from better stuff
This gift is ready to be found
Your heart's in wide receiving
Been too long buried in the sand
Some things require believing
These things just fall right in your hand

Just try to understand

If you long enough
And you don't give up
If you're strong enough
And you don't give up
