

# Just Like Gold (feat. Naika)

Fytch

...

Crystal skies  
Crowded places  
Lonely faces  
Howling wind  
In those eyes  
Desperation  
Hesitation  
For the win

Running from the darkness of the night,  
We'll be shining past the brightest light  
Just like gold  
Just like gold  
Believing we can spark the break of dawn  
We can find the power to be strong  
Just like gold  
Just like gold

...(gold)

Day or night  
There's no knowing  
Where you're going  
How and when  
But when you find  
Find your answer  
Don't take forever  
To begin

...(hmm)

Running from the darkness of the night  
We'll be shining past the brightest light  
Just like gold  
Just like gold  
Believing we can spark the break of dawn  
We can find the power to be strong  
Just like gold

Just like gold(just like gold)

...(gold)

Running from the darkness of the night  
We'll be shining past the brightest light

Just like gold

Just like gold

Believing we can spark the break of dawn

We can find the power to be strong

Just like gold

Just like gold(just like gold)

...

End
