

I Want to Know

Ray Charles

Now when my heart is racked with pain
And my best friend can't realize my name
Yeah I wanna know, said I wanna know
I want to know if you're ever blue
Cause when I'm down, yeah pick me up
and stand by me Now I'm in this world all alone
I ain't got nobody to call my own
Well I wanna know, said I wanna know
I want to know if you're ever blue
Cause when I'm down, please pick me up
and stand by me Now you've heard my song and my song is through
So remember baby, I'm depending on you
Cause I wanna know, I wanna know
Yeah I want to know if you're ever blue
Cause when I'm down, hey Lord pick me up
and stand by me
Stand by me
