Somebody Help Me

John Fogerty

I?ve been all around the world searchin? for my baby
Tell me where can she be
Lookin' high and low way back in Kokomo
It's still a mystery
Somebody help me
She don't want me no more
Somebody help me
I can't do this alone
I crossed the Great Wall of China
Spent my last dime way down the Amazon
Swam the Indian Ocean been up in Nova Scotia
Where has my baby gone
Somebody help me
There's somethin' goin' wrong
Somebody help me
I can't do this alone

I keep walkin? a bad street, can?t find my babe
I keep chasing the shadow
She don?t want me no more
Don?t want me no more
I went home to Pocatello, Idaho
Can I find a familiar face
Askin' everybody, everyone I know
She disappeared without a trace
Somebody help me
She don't want me no more
Somebody help me
I can't do this alone
Somebody help me
There's somethin' goin' wrong
Somebody help me
I can't do this alone
