Fuel

Lit

Look around and see who's watching?
What do they think? You're such a happening player
I don't do this for myself for my enjoyment
I only want to impress you
You're so amazing to me, how you know everyting
And you're just so cool it makes me sick
You give me ammunition, you are my gasoline
I hope you stick around 'cause you kill me, you fuel me
Tell me what I need to do, I'll change just for you
I'm just a stupid whore, I don't even listen to this kind of music
I only want to be famous, you're so fun to be with
And someone to be seen with I'm no one when you're not around
You're so amazing to me, how you know everyting
And you're just so cool it makes me sick
You give me ammunition, you are my gasoline
I hope you stick around 'cause you kill me, you fuel me
You're so amazing to me, how you know everyting
And you're just so cool it makes me sick
You give me ammunition, you are my gasoline
I hope you stick around 'cause you kill me, you fuel me
You're so amazing to me, how you know everyting
And you're just so cool it makes me sick
You give me ammunition, you are my gasoline
I hope you stick around 'cause you kill me, you fuel me
