

# On My Mind

## Delavega

Let's make a date out of the cinema  
Then stay out 'til early in the morning  
I always like it 'cause we take it slow  
While everyone around us seems so hurried  
It feels familiar 'cause I've been here before  
    When your words swept the ground  
        Right from under me  
    Remember when you were so insecure?  
    Now you can't get your hands up off of me  
        But the time we spent was so short  
        Can't believe it's time to go again  
    You're always on my mind all the time  
        On my mind, believe it  
    You're always on my mind all the time  
        On my mind, believe it  
    Can we pick it up where you left off?  
    When you said you'll never get over me  
    I'll take for granted every roll off your tongue  
    'Cause you're screaming out all your honesty  
        But the time we spent was so short  
        Can't believe it's time to go again  
    You're always on my mind all the time  
        On my mind, believe it  
    You're always on my mind all the time  
    'Cos there's nothing I'd rather think about  
        Believe it, believe it  
    You know it's time, you see the bags at the door  
        I'm minutes away from departing  
        In exchange for a few last words  
        Will never be enough for me  
    You're always on my mind all the time  
        On my mind, believe it  
    'Cos there's nothing I'd rather think about  
        Believe it, believe it  
    You're always on my mind, on my mind, believe it  
        But the time we spent was so short  
        Can't believe it's time to go again  
    You're always on my mind all the time  
        On my mind, believe it

You're always on my mind all the time  
On my mind, believe it
